

Posture in the Chapel

Eucharistic Prayer: In the year 1988, when construction began on the Newman Catholic student center, the vision for the Chapel was to have a space for worship and other activities such as concerts. It was decided that flexibility was the main factor in seating. With that in mind, the decision was made not to put kneelers in the Chapel. Therefore, the expectation even today is that people will stand during the eucharistic prayer. That being said, you are always permitted to kneel if that is your desire.
